

BASIC CHECK-UP

“Ready for School”

- Before the start of the school year, it is important to make sure your child is ready for new challenges and feels well.

“Ready for School” Check-UP — a comprehensive examination of your child by key specialists, with all necessary tests in one place.

Who is this Check-UP recommended for?

- Children preparing to start school
- Schoolchildren before the beginning of a new academic year
- Children who frequently get sick or tire easily
- Children with concerns about vision, hearing, sleep, or overall well-being

What does the Check-UP include?

Medical examinations

Laboratory tests

Personalized recommendations

Specialist consultations

- Pediatrician consultation — general assessment of the child's health, growth, and development.
- Pediatric ENT consultation — examination of hearing, nose, and throat.
- Pediatric ophthalmologist consultation — assessment of vision and eye health.

Laboratory tests

- CBC (Complete Blood Count) — assessment of overall health and detection of anemia and signs of inflammation.
- Urinalysis (UA) — assessment of kidney and urinary tract function.
- Stool test for helminth eggs and protozoan cysts — direct detection of intestinal parasites.

“Ready for School” Check-UP — peace of mind and confidence for parents!
